To Whom It May Concern:

It is with considerable esteem and respect that I present this letter of recommendation on behalf of Slater Builders, Inc. Ed Slater and his team of qualified staff and professionals have been involved on our 12 acre healthcare campus at Santa Teresita for the past seven years assisting with various construction and remodeling projects totaling over \$17 million worth of completed work. His team has also been intimately involved in our campus Master Planning involving a complete build out cost of \$121,000 million.

Slater Builders, Inc. has proven themselves to be effective in overcoming challenging situations with remodels of aging institutional buildings that range from a community center hall to a five story office building to occupied nursing and care facilities. With dedication and creativity they have participated in the design of residential facilities for our new Assisted Living care program and campus development to maximize space that conveys the mission and vision of Santa Teresita through its building and landscaping layout.

For the past five years Slater Builders has run our Facilities and Maintenance program integrating new construction and building elements with ongoing upkeep of the physical plant for our multi-building campus. In addition to their technical skills and expertise, Slater Builders has been remarkable in their ability to understand and work in the context of our campus culture, organizing work and planning in a manner that respects programs as they continue to operate alongside renovations and construction.

If you would like to speak with me in person, I would be most happy to do so and can be reached at (626) 408-7802.

Sincerely,

Sister Mary Clare, OCD
Chief Executive Officer
Santa Teresita, Inc.

To Whom It May Concern:

It is with considerable esteem and respect that I present this letter of recommendation on behalf of Slater Builders, Inc. Ed Slater and his team of qualified staff and professionals have been involved on our 12 acre healthcare campus at Santa Teresita for the past two years assisting with various construction and remodeling projects totaling over \$15 million worth of completed and work in process. His team has also been intimately involved in our campus Master Planning involving a complete build out cost of \$100,000 million.

Slater Builders, Inc. has proven themselves to be effective in overcoming challenging situations with remodels of aging institutional buildings that range from a community center hall to a five story office building to occupied nursing and care facilities. With dedication and creativity they have participated in the design of residential facilities for our new Assisted Living care program and campus development to maximize space that conveys the mission and vision of Santa Teresita through its building and landscaping layout.

In addition to their technical skills and expertise, Slater Builders has been remarkable in their ability to understand and work in the context of our campus culture, organizing work and planning in a manner that respects programs as they continue to operate alongside renovations and construction.

If you would like to speak with me in person, I would be most happy to do so and can be reached at (626) 408-7804.
